BIBLE GABRIEL AR@ANGE BEAN (pulse)

Gabriel ("God is my strength or Hero of God") - **Angelic Messenger** – One of the two highest ranking angels.
He is the angel of mercy, annunciation, resurrection, death and **revelation**.

4. 29 “The sun hidden, eclipsed by Mercury”

10 84 1 **TAHITIANS ALL SUN** - implies the other side is all night – this is after the Earth has been moved

My daughter and I were sitting together at my computer yesterday while I was using the quatrains as "confirmation" to some hidden texts I am working on and she said
 "my god mum - just re-doing the quatrains with the new codes would take a life time!"

You see, many of the quatrains have simply been mis-represented altogether.
 Partly by some ignorant person correcting the spelling "mistakes" which Nostradamus had put in the quatrains on purpose in order to achieve the hidden texts... another problem is the translating of gender articles.
 In English an "IT" is an 'it'. In French it is a "she" or a "he"... the consequences of which have altered the meaning of many quatrains, especially if translated by a French person.

Only yesterday, while working on a quatrain - Erika Cheetham (the only decoder who did not fix the supposed "mistakes") she mentioned in quatrain 6 70, that these two words - *in the original document* - were all in *upper case*!

Nostradamus did this for one extremely good reason
 THESE ARE THE WORDS WHICH MUST BE ANAGRAMMED ON THEIR OWN
 The "codes within codes" which was given in one of the hidden text lines
 So I did them and here is what I got:

6 70 **PLUS OULTRE** (the capitalised words) which mean FURTHER BEYOND
 the word PUL(L) means **PULLING THE EARTH INTO A NEW ORBIT**

RYB DEUTERON f H (Rib is Leo – from Regulus, the “red hats” of the Rapture) S is Celt Willow H is in Taurus
Willow is in April and Taurus is in May

This is describing the physical component of those from Leo – is this related to “radon” mentioned in the lines?

1. The nucleus of deuterium, called a **deuteron**, contains one proton and one neutron, whereas the far more common hydrogen isotope, protium, has no neutron in the nucleus. The deuterium isotope's name is formed from the Greek *deuteros* meaning “second”, to denote the two particles composing the nucleus
2. Stable and radioactive isotopes can be used as a preliminary investigation tool or as an independent means of confirming the results of other methods. Deuterium, oxygen-18 and radon-222 are the most commonly used isotopes to investigate groundwater-surface water

The Leonines seem to have been involved in the construction of the original Sphinxes in the age of Leo. They may also be the “Medusines”. If they are the “radon” visitors which Nostradamus speaks of and warns regarding the radon effect on humans – then they also are the same who used flat top pyramids for “landing platforms” for the protection of those humans. Do recall why they were landing at the Maya pyramids – as they seem to be the “red hats” involved in the coming rapture. The appearance of many hands above a “castle” (zodiac mansion) in one of Cesar’s Lost Book manuscripts; is referring to those from Leo (Regulus). They also have stage gate knowledge. They may even be the “Hydra” (the “fleeing serpent”) with the head on its tail removed as shown in the vignettes

If you have read the forum PLANAR – PLANISPHERE you will know what this is – the Earth in very close proximity to a very large planetary body. The atmosphere of the Earth is clearly shown being nudged. The Moon is nowhere to be seen in this photograph, sometimes the crop circle photographers zoom in to the main picture and miss a detail some distance away...

Here I will add some doubts I have encountered recently. We may not even be in the year 2012! According to Dr Hans Ulrich Niemitz; 325 years were ‘written out of the records’ in the ‘middle ages’. The only question I then have is: why are the crop circle warnings coming now, if the Maya calendar is not going to be in effect for another 325 years?
